Practice Code Notes

Practice Code Server: TestAppStart

Note: Will be adding "start" keyword for everything that is being done for first time or starting.

Generated with Angular Cli (package: @angular/cli)

- Command: "ng new TestAppStart"

Basic Practice Module: BasicAppModule

Directory: src/app/basic-module-start

Overall Notes:

- Use "**ngNonBindable**" directive to escape expressions in html elements.

    Example:- <p ngNonBindable> {{ data }} </p>
